Course on handling anorectal malformations under the Third World Congress Pediatric Surgery, Nueva Delhi, India.

Attendance and participation at the HITEC course of endoscopy, at John Hopkins hospital, Baltimore.

---

## **ATTENDANCE AND PARTICIPATION IN CONGRESS**

Attendance and participation in the First Congress of current and former residents from the Children's Hospital of Mexico Federico Gomez and the National Institute of Pediatric about the topic of penile fusion as an alternative in cases of real diphallia.

Attendance and participation in the Third Medical Congress at the Children's Hospital of Mexico Federico Gomez and the National Institute of Pediatric about the topic of Hidroa Vacciniiforme, informing a case of infectious endocarditis in the right pulmonary artery .

Attendance and participation as a speaker at the XLII National Congress of Pediatric Surgery, about the topic: Experience with the endoscopic capsule in children with gastrointestinal bleeding of unknown origin.

Attendance and participation as a speaker at the IV Ibero-American Congress of Pediatric Surgery in Havana Cuba about the use of the experience with the endoscopic capsule in children with gastrointestinal bleeding of unknown origin.

Attendance and participation as a speaker at the XLII National Congress of Pediatric Surgery about the topic: Using Scintigraphy with IN 111 for the diagnosis of intestinal neuronal dysplasia.

Attendance and participation as a speaker at the Third World Congress of Pediatric Surgery in New Delhi.

Assistance to the 21 Annual Congress for Endosurgery in children with the poster about the experience using histoacryl in the management of gastric variceal bleeding in children.

Attendance and participation at the 40th National Meeting of gastrointestinal endoscopy about the topic of primary prophylaxis with the use of N-butyl-2 cyanoacrylate in patients with gastric varices.

Attendance and participation at the 25 Annual Congress for endo-surgery, Fukuoka 2016 in children about the topic: Electrical stimulation therapy of the lower esophageal sphincter in treating gastroesophageal reflux disease in pediatric population, world's first reported case.

Attendance and participation at the UEG week congress, Vienna 2016 about the topic: Electrical stimulation therapy of the lower esophageal sphincter in treating gastroesophageal reflux disease in pediatric population.

Attendance and participation at the National congress of gastroenterology, Mazatlan Mexico 2016 in children about the topic: Electrical stimulation therapy of the lower esophageal sphincter in treating gastroesophageal reflux disease in pediatric population.

Attendance and participation at the pediatric conferences annual, Dubai 2017 about the topic: Electrical stimulation therapy of the lower esophageal sphincter in treating gastroesophageal reflux disease in pediatric population.

---

#### **PUBLICATTIONS AND WORKS**

1. Chronic obstructive pulmonary disease.
2. Use of the endoscopic capsule in children with gastrointestinal bleeding of unknown origin (First author)
3. Intervention model for preventing motorcycle injuries for the Secretariat of Health (First author)
4. Specific action program 2011-2020 (prevention of injuries from falls), for the Secretariat of Health. (First author)
5. Clinical Practice Guidelines about Extraction of foreign bodies from the airway in children from 2 to 12 years old in the third level of care (First author)
6. Clinical Practice Guidelines about esophagitis diagnosis by reflux in children and adults in the third level of care (co-author)
7. Experience using histoacryl in the management of gastric variceal bleeding in children.
8. Using scintigraphy (indio 11 pentetreotide) as a new method for diagnosis intestinal neuronal dysplasia.
9. Use of the endoscopic capsule in children with obscure gastrointestinal bleeding.

10. Poor prognostic factors in lymphangiomas using OK 432 Picinabil in pediatric population at the Children's Hospital of Mexico Federico Gomez
11. Endoscopic and surgical tricobezoar management in a hospital of third level.
12. Electrical stimulation therapy of the lower esophageal sphincter in treating gastroesophageal reflux disease in pediatric population, world's first reported case.
13. First two cases in the world about using electrostimulation in the lower esophageal sphincter for the treatment of gastroesophageal reflux in children.

---

#### **PRESENTATION OF POSTERS AND OBTAINED TITLES**

First place at the Second Congress of current and former residents from the Children's Hospital of Mexico and the National Institute of Pediatric about the topic of penile fusion as an alternative in cases of real diphallia.

Third place at the XLII National Congress of Pediatric Surgery about the topic: Experience using the endoscopic capsule in children with gastrointestinal bleeding of unknown origin.

Third place at the Third World Congress of Pediatric Surgery in Nueva Delhi about the topic: Using Scintigraphy with IN 111 for the diagnosis of intestinal neuronal dysplasia.

Attendance and participation at the 25 Annual Congress for endo-surgery, Fukuoka 2016 in children about the topic: Electrical stimulation therapy of the lower esophageal sphincter in treating gastroesophageal reflux disease in pediatric population, world's first reported case.

Attendance and participation at the UEG week congress, Vienna 2016 about the topic: Electrical stimulation therapy of the lower esophageal sphincter in treating gastroesophageal reflux disease in pediatric population.

Attendance and participation at the National congress of gastroenterology, Mazatlan Mexico 2016 in children about the topic: Electrical stimulation therapy of the lower esophageal sphincter in treating gastroesophageal reflux disease in pediatric population.

Attendance and participation at the pediatric conferences annual, Dubai 2017 about the topic: Electrical stimulation therapy of the lower esophageal sphincter in treating gastroesophageal reflux disease in pediatric population.

#### **WORK EXPERIENCE**

Physician at the service of pediatric surgery at the Hospital pediátrico de Coyoacán 2010-2014.

Physician at the service of pediatric surgery at the Hospital General de Tenancingo, State of Mexico ISEM 2012-2014.

Physician at the service of pediatric surgery at the Hospital general Tacuba ISSSTE 2014-2015.

Pediatric surgeon, pediatric endoscopist at Hospital Angeles Pedregal present time.

Pediatric surgeon, pediatric endoscopist at Hospital Infantil Privado present time.

Head of pediatric endoscopy at Hospital Infantil Privado, december 2016- presente time.
